WELCOME MESSAGE

Dear friends and colleagues,

On behalf of the International Committee of Military Medicine (ICMM), we take pride and honor to welcome all our delegates and guests from all over the world to the outstanding 12th ICMM Regional congress from 28 Oct. to 1 Nov. 2020 at the home of the most ancient civilization— Cairo, Egypt. The Congress will be hosted by the Armed Forces Medical Services Department.

Egypt has been for decades a center of the region's political and cultural life. As one of the largest countries in Africa and Middle East, and being named as one of Top 20 tourist attractions in the world, I can tell you that, aside from attending a scientific medical congress, you can also explore more than 7,000 years of History and Civilization. Thus, Egypt is a unique location to host the 12th ICMM Regional congress.

Military medicine is constantly evolving. It always creates new results that have a significant impact on our daily practices and realistic action plans by analyzing yesterday's models to reach out all the new and advanced for a better future.

Our main aim, is presenting all of advanced and unique experiences in the field of military and disaster medicine.

During the congress days you will be able to attend a wide range of scientific lectures, educational sessions, posters, live shows, hands on trainings and workshops. In addition to our exhibition of latest equipment, products and services; that will help you provide the best services for your practice. You will also have the opportunity to meet the top-notch international and regional experts.

We are all in The Egyptian Armed Forces delighted to welcome you to share an extraordinary educational and cultural program in the land of Pharaohs, Egypt!

Maj. Gen. Physician/ Magdy Ameen
Congress President
