Subject to any arrangements which may be necessary to safeguard the confidential nature of certain documents, the OIE and the ICMM shall undertake the exchange of technical documents.

The ICMM contracts, provided that the competent authority of each member military health services give its agreement, to provide all useful and non confidential information to bring up to date a data base in relation with military veterinary duties in the field of public health.

3. Cooperation

The OIE and the ICMM agree in order to act in collaboration and to consult each other on questions of mutual interest, in particular those concerning veterinary public health.

The OIE and the ICMM may agree on joint actions, notably in order to develop international cooperation for animal disease protection, food safety, fight against zoonoses and animal welfare.

4. Validity and duration
